Yalantis Golang School (online)

send to: education@yalantis.net until 23.11.2020(inclusive) Yalantis Golang School".

Here is your test task:

Using any of web application development technologies, create a service that counts
users which opened current page of website
Display counter on the same page
Service should log errors
Tests are welcome

Expected result:

an archive with your service OR a link on a git repository with your code
